Site

The Spruce tree T147, as highlighted within the report, and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Noel Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T147 - Refer to drawing - X Cupressocyparis - Tree Removal

Issues

I hold no objections to the removal of the low-grade tree that is not worthy of any further protection.

The Spruce is also sited in the wrong inappropriate location.

Recommendation

No Objection
