The young conifer trees are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Issues

I hold no objections to the proposed pruning works to curtail the growth of the trees.

The specification is within standard good arboricultural practice and husbandry.
