Site

The trees as listed above, marked on the plan, and seen in the photographs, are situated in the grounds of the property. The Holm Oak is indiscernibly publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Holm Oak - Crown reduce the height and spread by approximately 0.5m-0.8m ensuring to retain foliage where possible

Reduce the spread to balance and shape leaving growth to screen the neighbouring 1st floor window (approx. 0.3m)

Box Elder - Large cavity in the elbow of the main stem, showing signs of bottling

Crown reduce the height by approx. 3.5m

Crown reduce the spread to balance and shape (approx. 2.0m)

Retain screening across the 1st floor window

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

Both species generally respond well to such reductions and management regimes.

Recommendation

No Objection
