External Finishes Schedule

Ref	Element	Specification
01	Facing Brickwork	AAB Orion Red Handmade Brick
02	Lime Render	Lime Green Natural Hydraulic Lime Render, Chalk tone
03	Window Frames	Velfac 200 Energy PPC Aluminium
04	Decorative Lintels / Reveals	Lime Render, Chalk tone
05	Window Cills	AAB Orion Red Handmade Brick
06	Copings	Secret-fixed PPC Aluminium Coping
07	Hopper / Downpipe	Alumasc Infinity Natural Zinc
08	Flat RoofTerrace	600x600 Concrete Pavers
09	Pitched Roof	VM Zinc Standing Seam Roof
10	Paving Brick	AAB Orion Red Handmade Brick

01 Facing Brickwork

AAB Orion Red Handmade Brick

The AAB Red Multi Handmade Facing Bricks offer a classic, characterful finish, perfect for both traditional and contemporary designs. Crafted from high-quality clay, these durable bricks feature rich red tones and a distinctive heavy crease texture, adding depth and visual appeal to any construction or renovation project. Suitable for unprotected masonry walls, columns, and partitions, they combine strength, style, and long-lasting performance.

- Handmade for a traditional, characterful finish
- Heavy crease texture for enhanced aesthetics
- High durability rating of F2
- T2/R1 tolerance for consistent quality
- Crushing strength of $>15\text{N/mm}^2$
- Dimensions: 215 x 102.5 x 65mm

02 Lime Render

Lime Green Natural Hydraulic Lime Render, Chalk tone

Pre mixed natural hydraulic lime and sand. A general purpose lime mortar for building or pointing stone, brick and block; available in different strengths, different sand gradings and colours.

- Product Brand : Lime Green
- Product Code : MOR-LG-CG020
- SKU : MOR-LG-CG020M

03 Window Frames

Velfac 200 Energy PPC Aluminium (RAL 7035)

High-performance composite window system comprising powder-coated aluminium external profiles and factory-finished timber internal frames. Triple-glazed units provide excellent thermal performance, durability and low maintenance requirements. External: Powder-coated aluminium, colour to approved sample. Internal: Factory-finished timber frame.

- Triple glazing
- Low-energy glazing system
- High airtightness and weather performance
- Designed to meet contemporary energy efficiency standards

04 Decorative Lintels / Reveals

Lime Green Natural Hydraulic Lime Render, Chalk tone

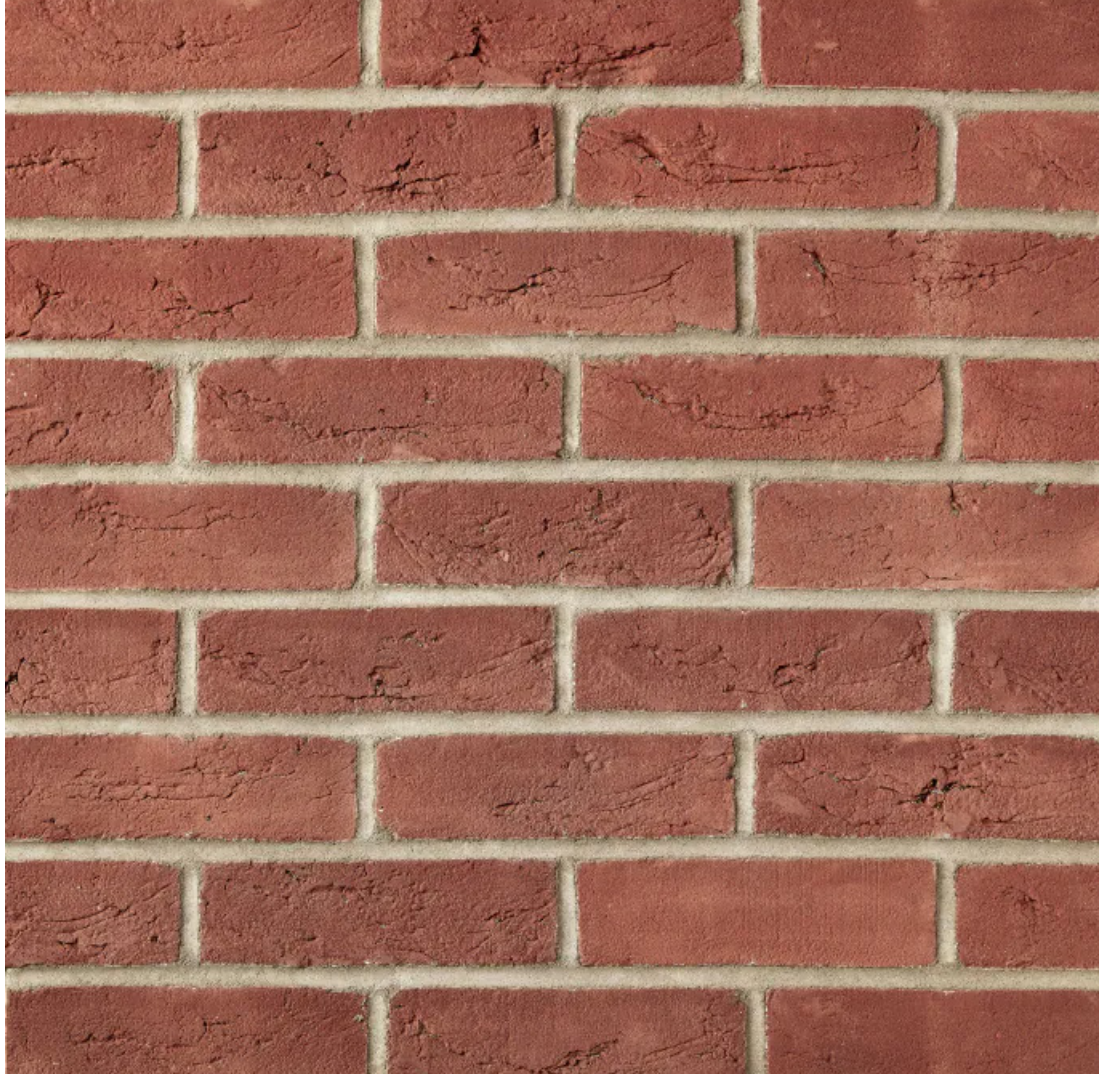

Pre mixed natural hydraulic lime and sand. A general purpose lime mortar for building or pointing stone, brick and block; available in different strengths, different sand gradings and colours.

- Product Brand : Lime Green
- Product Code : MOR-LG-CG020
- SKU : MOR-LG-CG020M

05 Window Cills

AAB Orion Red Handmade Brick

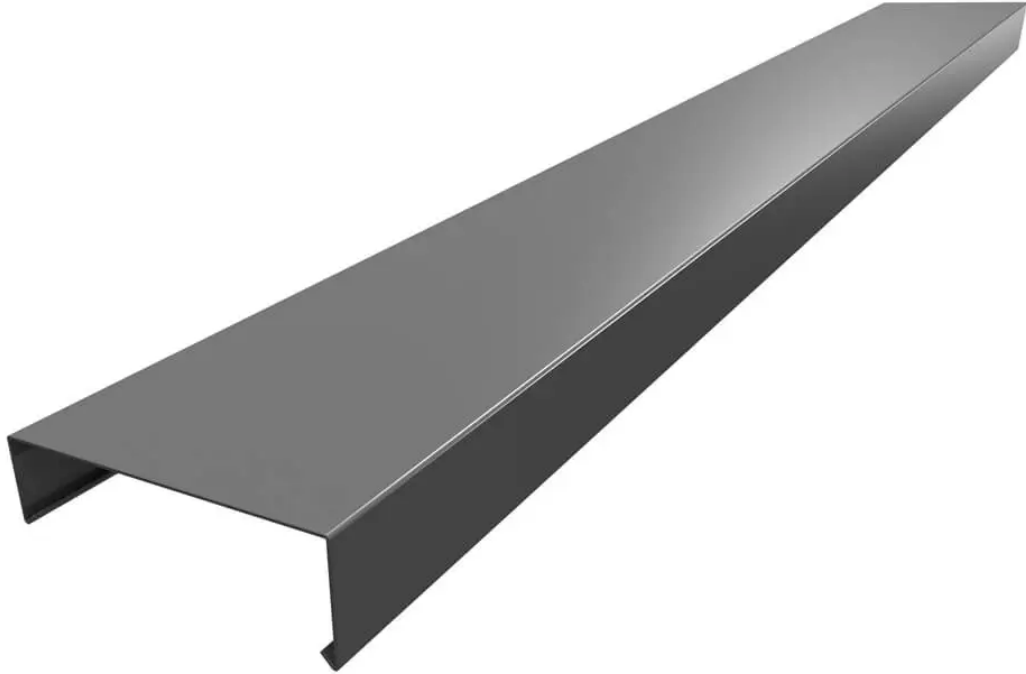

The AAB Red Multi Handmade Facing Bricks offer a classic, characterful finish, perfect for both traditional and contemporary designs. Crafted from high-quality clay, these durable bricks feature rich red tones and a distinctive heavy crease texture, adding depth and visual appeal to any construction or renovation project. Suitable for unprotected masonry walls, columns, and partitions, they combine strength, style, and long-lasting performance.

- Handmade for a traditional, characterful finish
- Heavy crease texture for enhanced aesthetics
- High durability rating of F2
- T2/R1 tolerance for consistent quality
- Crushing strength of $>15\text{N/mm}^2$
- Dimensions: 215 x 102.5 x 65mm

06 Copings

Secret-fixed PPC Aluminium Coping

Extruded aluminium coping system installed to parapet walls and roof edges. Secret-fixed arrangement to provide a clean and uninterrupted architectural profile whilst protecting the wall construction from water ingress and weathering. Polyester powder-coated aluminium. Colour to approved sample.

- Secret-fix aluminium coping system
- 3 metre lengths
- 70mm downstands
- Formed corners and junctions to manufacturer's details
- Integrated movement joints as required

07 Hopper/ Downpipe Alumasc Infinity Natural Zinc

High-quality natural zinc rainwater goods comprising circular downpipes, hopper heads, gutters and associated fittings. The system is manufactured from natural zinc, providing a durable, low-maintenance and architecturally appropriate finish that will weather naturally over time.

- Alumasc Infinity Natural Zinc System
- Circular downpipes
- Bespoke box-section hopper heads to architectural details
- Concealed gutters where indicated on approved drawings
- Proprietary fittings, brackets and outlets to manufacturer's specification

08 Flat Roof Terrace Floor Finish 600x600mm Concrete Pavers

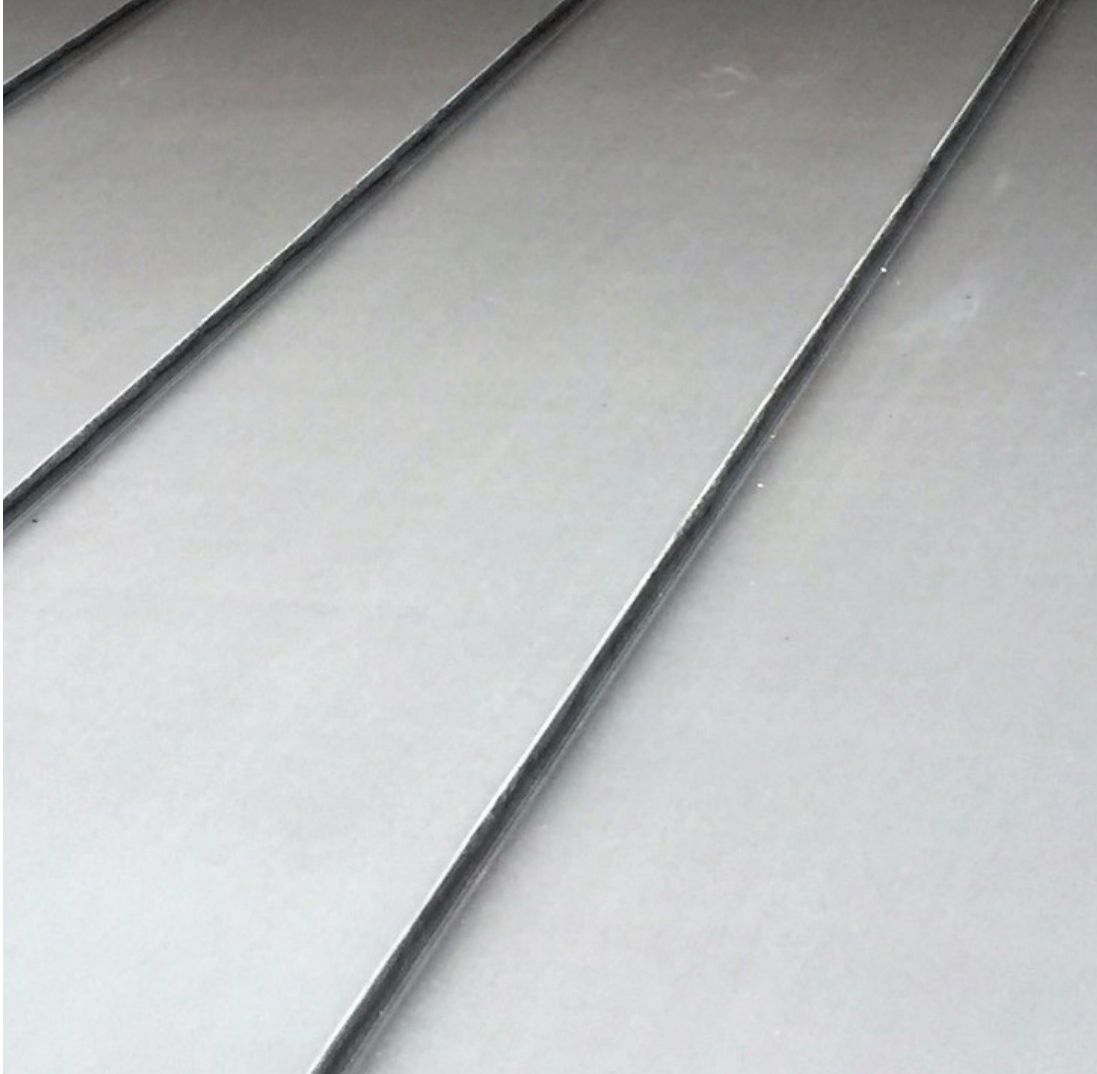

Precast concrete paving slabs, Natural Grey Honed Concrete installed on an adjustable pedestal support system to form the accessible flat roof terrace. The system provides a durable, level and demountable external surface whilst allowing drainage and access to the roof build-up below.

- 600 x 600mm concrete paving slabs
- Honed concrete finish
- Adjustable pedestal support system
- Open-jointed installation
- Falls and drainage in accordance with approved roof design
- All perimeter and edge conditions to architectural details

09 Pitched Roof

VM Zinc Natural Finish Standing Seam Roof

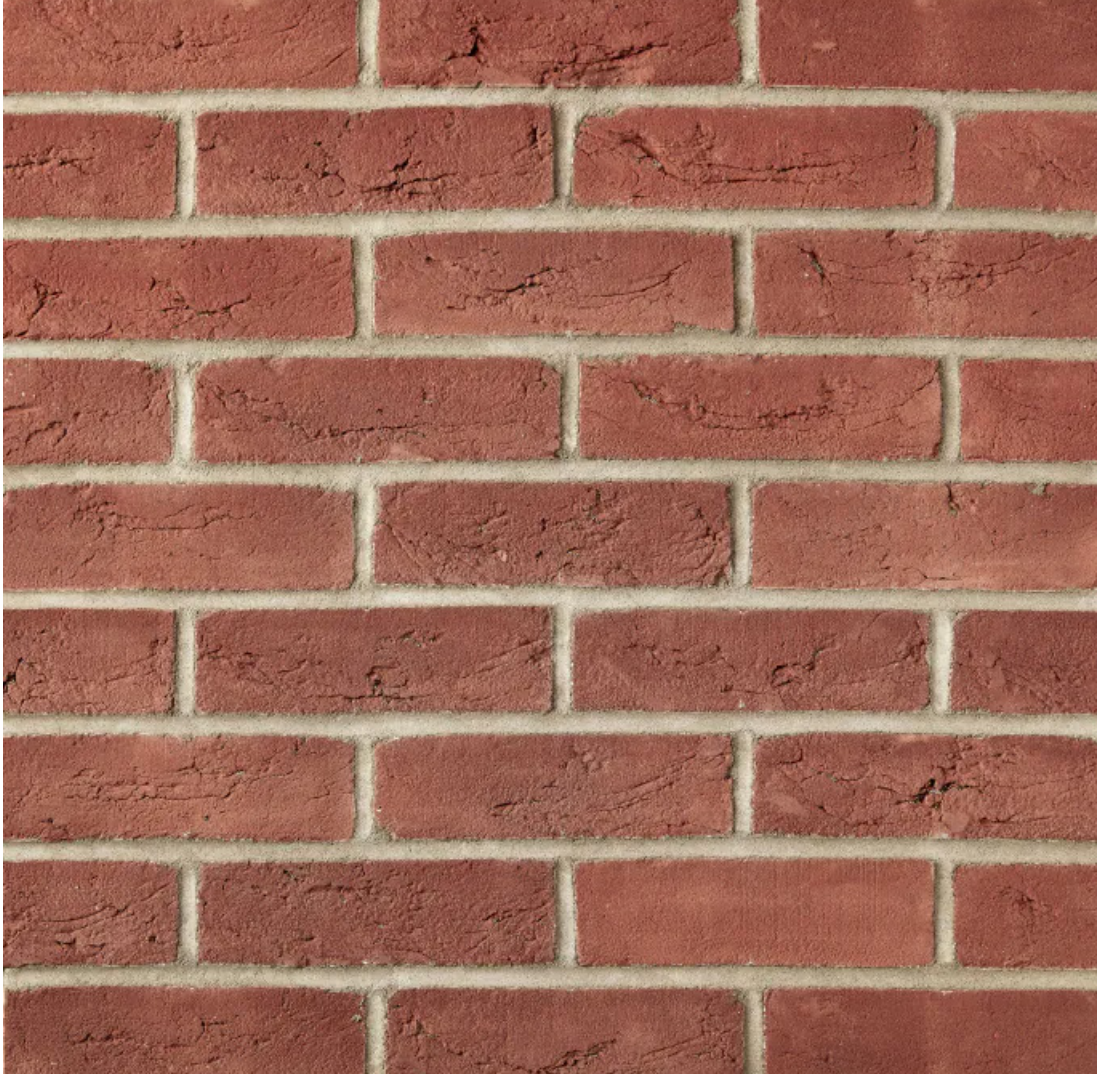

Traditional standing seam zinc roofing system comprising continuous zinc sheets mechanically fixed to the roof structure with raised standing seams. The system provides a durable, weather-resistant and visually refined roof finish appropriate to the scale and character of the mews setting.

- VM Zinc Standing Seam Roofing System
- Natural Zinc finish
- Raised standing seam profile
- Secret-fixed installation
- Ventilated roof build-up
- Proprietary flashings, ridges and edge trims to manufacturer's details
- All junctions and penetrations formed in accordance with approved architectural details

10 Paving Brick

AAB Orion Red Handmade Brick

The AAB Red Multi Handmade Facing Bricks offer a classic, characterful finish, perfect for both traditional and contemporary designs. Crafted from high-quality clay, these durable bricks feature rich red tones and a distinctive heavy crease texture, adding depth and visual appeal to any construction or renovation project. Suitable for unprotected masonry walls, columns, and partitions, they combine strength, style, and long-lasting performance.

- Handmade for a traditional, characterful finish
- Heavy crease texture for enhanced aesthetics
- High durability rating of F2
- T2/R1 tolerance for consistent quality
- Crushing strength of $>15\text{N/mm}^2$
- Dimensions: 215 x 102.5 x 65mm
