The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Five Day Notice.

Tree with an insect infestation as a result of a cavity and dead wood above it. Proposed works - retain the tree as it has basal growth, but bring the tree down by 50% to make it safe

Issues

I hold no objections to the proposed pruning works to bring the tree down to a safer and more manageable height under a Five- Day Notice.

The species generally responds well to pruning.

Recommendation

No Objection
