Proposal

Tree works proposed.

T1 - cypress tree (7m) - reduce height to previous pruning points, approximately 2m reduction.

T2 - apple tree (7m) - reduce crown to previous pruning points, approximately 3m reduction.

T3 - yew tree (8m) - reduce height by approximately 1m, reduce crown by approximately 0.5m, reduce branches away from shed

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such pruning and management regimes.
