Site

The self-set Sycamore tree is situated in the rear garden of the property. It is indiscernibly publicly visible from The Roundway.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the White Hart Lane Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Tree location - rear garden

Access - via Green on Roundway

T1 - Approx. H10 S6 45DBH Sycamore

Fell

Apply appropriate herbicide

Issues

I hold no objections to the removal of the low-grade self-set Sycamore tree.

The tree has been poorly past pruned and over lifted. It is also showing decline within the crown.

The tree is inappropriately placed and causing direct damage.

Recommendation

No Objection
