Site

The Sycamore tree T1, as marked on the plan, and seen in the photographs, is situated in the rear garden of the property. It is indiscernibly publicly visible from Carlton Road N4.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Mature Sycamore tree, reduce lateral and vertical growth by 3.0 M approx

Issues

I hold no objections to the proposed reasonable pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
