Site

The Eucalyptus tree, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 eucalyptus- reduce from 12m to 9m (to previous reduction points) Remove suckers at base of trunk

Issues

I hold no objections to the reasonable repeat proposed pruning works to prune back to the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
