## **Site**

The mature Beech tree T1 as seen in the photographs, is situated in the front communal grounds and entrance of the property. It is publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

## **Proposal**

Tree works proposed.

Five Day Notice for works to tree protected by a TPO.

T1 - Beech tree (22m)- reduce branches growing over road on far side of road by up to 3m to balance crown. Prune back from street lamp to create 2m clearance

## **Issues**

I hold no objections to the reasonable proposed pruning works under a Five- Day Notice.

The tree has shed several branches in the last three weeks.

The specification is within standard good arboricultural practice and husbandry.

The works will balance the over reached branches on the road side by brining the crown in.

## **Recommendation**

**No Objection**
