Site

The mature Oak tree T2, as listed, described above, and marked on the plan, is situated in the rear communal grounds of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Rear garden behind row of garages:

Oak T2 (18M high, 800mm dia.) - Reduce the crown of the tree on the neighbours side by up to 2 metres. Remove all deadwood.

Reason: Crown overhang very close/touching the neighbouring property.

(Works to T3 Wild Cherry will be considered separately under Tree Works Application reference HGY/2026/1607, as this tree is protected by a TPO)

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

Recommendation

No Objection
