

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/1629
Application type	Conservation Area Notification
Site Address:	171 Stapleton Hall Road, Hornsey, London, N4 4QS
Proposal	Willow tree- Fell Tree has loose bark and decay on the trunk at ground level- concerns it may fall in a storm

RECOMMENDATION:	No Objection	
Application date	09/06/2026	
Tree Inspector	DM	Date: 24 th June 2026

Site

The early mature Willow tree, as marked on the plan, and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (16/06/2025 at 10:57am approximately).

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Willow tree- Fell

Tree has loose bark and decay on the trunk at ground level- concerns it may fall in a storm

Issues

I hold no objections to the removal of the young leaning willow tree. The tree has mechanical wound damage at the base, and poor morphology.

The garden is small and the Willow tree is an unsuitable species for such a location.

The willow tree would need to be kept as a regularly maintained high pollard meaning arisings would need to come through the property.

The tree, using an impartial scoring methodology, is not worthy of further protection.

The applicant intends to re plant with a more suitable species.

Recommendation

No Objection
