A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The tree is protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to tree protected by a TPO.

Cupressus covered by TPO/2017/0003.

Reduction in height of crown by approximately 35% (around 3 metres) and trim sides. Tree T1 (see sketch map) is located 3.1m from 72 Glasslyn Road (side wall). This house has suffered from subsidence in the past and it is therefore prudent to manage the tree's dimensions on a regular basis. The most recent approval was granted 07/02/2023 (reference HGY/2023/0376)

Issues

I hold no objections to the proposed pruning works.

The tree has suppressed growth on one side up the stem and has hence poor morphology.

The tree has been reduced previously most likely due to the tight co-dominant defect within the stem.

Recommendation

No Objection
