Site

The Hornbeam tree T3, as marked on the plan, is situated in the rear communal grounds of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

SITE FRONTAGE:

Hornbeam T3 (12M high, 350mm dia.) - Reduce the crown of the tree by up to 2 metres and back to the most recent points of reduction.

(Works to T4 Lime will be considered separately under Tree Works Application reference HGY/2026/1608, as this tree is protected by a TPO)

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent pruning points.

The specification is within standard good arboriculture practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
