

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/1631
Application type	Conservation Area Notification
Site Address:	10 Wolseley Road, Hornsey, London, N8 8RP
Proposal	The proposal is to remove a small wild cherry tree (prunus avium) that is growing in the front garden, next to the gate. The reason for removal is that the tree is competing with a larger Magnolia tree, which is the main feature of the front garden. Having spoken with tree surgeons, we are of the view that there is not sufficient space to accommodate both trees, and that reducing or reshaping the tree is unlikely to result in an attractive and healthy-looking tree. It is also close to the garden wall so is likely to cause damage to the wall as it grows larger. The tree would be replaced by a range of planting, including roses, evergreen shrubs, and climbing plants along the wall

RECOMMENDATION:	No Objection	
Application date	09/06/2026	
Tree Inspector	DM	Date: 24 th June 2026

Site

The young multi- stemmed Cherry tree, as seen in the photographs, and street view, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

The proposal is to remove a small wild cherry tree (*prunus avium*) that is growing in the front garden, next to the gate. The reason for removal is that the tree is competing with a larger Magnolia tree, which is the main feature of the front garden. Having spoken with tree surgeons, we are of the view that there is not sufficient space to accommodate both trees, and that reducing or reshaping the tree is unlikely to result in an attractive and healthy-looking tree. It is also close to the garden wall so is likely to cause damage to the wall as it grows larger. The tree would be replaced by a range of planting, including roses, evergreen shrubs, and climbing plants along the wall

Issues

I hold no objections to the proposed removal of the younger competing Cherry tree, and for the reasoning given.

The applicant intends to re plant within the front garden with more appropriate planting.

Recommendation

No Objection
