Site

The mature Birch tree, as seen in the photographs, and marked on the plan as T1, is situated in the rear communal grounds of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Betula pendula in rear garden of North Hill Court. Tree surgeon has advised that mature tree is leaning towards the main building and recommends the following works:

Remove ivy. 2m height reduction. 1.5m spread reduction

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
