Site

The young mature Sycamore tree, as marked on the plan, and seen in the photograph, is situated in the adjacent communal grounds. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Sycamore overhanging from Southwood Park N6 5SG: Reduce overhanging lateral spread (southern canopy) by up to 2 metres to provide light and space to garden of 82 Southwood Lane

Issues

I hold no objections to the sensitive reasonable proposed proportional care and pruning. The specification is within standard good arboriculture and husbandry.

The species generally responds well from such management regimes.

This appears to be carrying out one's common law right to prune back to the boundary only. If this is the case then it is courteous and prudent to notify the neighbouring land owner.

Recommendation

No Objection
