Site

The various trees, as listed above, highlighted in the condition survey, marked on the aerial plan, and seen in the photographs, are situated in the grounds of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Tottenham Central Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Sycamore - Prune to provide 3m clearance from building

T2 - Sycamore - Prune to provide 3m clearance from building

T3 - Ash - Remove

T4 - Ash - Remove

T5 - Sycamore - Prune to provide 3m clearance from building

Issues

I hold no objections to the proportional care and proposed reasonable pruning works.

The specification is within standard good arboricultural practice and husbandry.

The Ash removals are weak self-sets growing in inappropriate sites.

Recommendation

No Objection
