2. Planning assessment

The application site relates to a mid-terrace house, which has been divided into two flats. This site is not located within conservation area. However, Bruce Grove Conservation Area abuts the site to the rear.

The application history in relation to this site is noted:

· OLD/1974/0283
5, Hartham Road, London, N17 6RZ, London
Conversion to 2 self-contained flats.
Decision Date: 9 October 1985
Decision: Approve with Conditions

This application is being considered against DPD Policy DM12 'Housing Design and Quality' which seeks to ensure that alterations to existing residential buildings to be of a high, site specific, and sensitive design quality, and to respect the period, architectural characteristics, detailing of original buildings. Equally DPD Policy DM1 'Delivering High Quality Design', which requires development proposals to relate positively to their locality, is a consideration.

This application is seeking consent for the replacement of the existing front timber door with a composite door. The existing front door is a navy blue colour, composed of two single glazed panes. The proposed door will have a different design with the panel and glazing arrangements, that will not affect the character of the building. The proposal will not result in the loss of a characteristic front door. Front doors along Hartham Road exhibit a variety of designs, materials and colours, with no consistent design along the street. As such, the proposed replacement door will be acceptable within the street scene.

The existing single glazed obscure fanlight will also be replaced with a double glazed obscure fanlight, which will not have a material impact on the appearance of the front elevation.

The replacement door and double glazing here will deliver benefits in terms of greater thermal efficiency and sound insulation, which are considerations that also need to be taken into account in considering this application, in particular mindful of Haringey's Climate Change Action Plan (HCCAP) and the objective to be net zero carbon by 2041.

The replacement of the front door will not impact the security of the host building and would not impact the amenity of the occupants of the property. Nor will there be an impact on the amenity of neighbouring occupiers.

Overall, the proposed replacement door will not materially affect the external appearance of this property or character of the area. Nor do such works present any issues in terms of amenity for the occupants of the property or neighbouring occupiers. For the reasons outlined above, the works here are considered acceptable and in accordance with relevant planning policies.

3. Recommendation

It is therefore recommended that this application be APPROVED in accordance with conditions.

Conditions:

- 1 The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country

Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2 The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed below, other than where those details are altered pursuant to the conditions of this planning permission.

Approved drawings list: Location Plan, TQRQM26103171418379,12235-PR-HR_05-ZZ-DR-A-PL201, 12235-PR-HR_05-ZZ-DR-A-PL401

Reason: For the avoidance of doubt and in the interests of proper planning.
