Historic aerial view of site aerial view dated June 2015 on google earth **Site boundary to No. 43 Whittington Road**

Summary of conclusions from the historic aerial photos
The aerial photos show that the current arrangement of a rear extension, garage and rear garden outbuildings to the property have been in place since at least September 1999 (the earliest clear image available on google earth).

This serves as documentary evidence that the buildings have been in place for over 26 years.
