

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/1827
Application type	Conservation Area Notification
Site Address:	14 Wolseley Road, Hornsey, London, N8 8RP
Proposal	<i>T1 Eucalyptus: Reduce height by 3m and lateral growth by 2-3m</i> <i>The proposed works form part of routine cyclical tree maintenance. Reduce the overall height by approximately 3 metres and reduce the radial spread to maintain a balanced, well-proportioned crown appropriate for its location. Selective crown thinning will improve light penetration and airflow throughout the canopy, whilst the removal of major deadwood will reduce the risk of branch failure and improve the tree's long-term structural condition. The works are considered proportionate and will retain the tree's health, natural form and amenity value in accordance with BS3998:2010 – Tree Work – Recommendations</i>

RECOMMENDATION:	No Objection	
Application date	29/06/2026	
Tree Inspector	DM	Date: 14 th July 2026

Site

The Eucalyptus tree T1, as marked on the plan, and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Eucalyptus: Reduce height by 3m and lateral growth by 2-3m

The proposed works form part of routine cyclical tree maintenance. Reduce the overall height by approximately 3 metres and reduce the radial spread to maintain a balanced, well-proportioned crown appropriate for its location. Selective crown thinning will improve light penetration and airflow throughout the canopy, whilst the removal of major deadwood will reduce the risk of branch failure and improve the tree's long-term structural condition. The works are considered proportionate and will retain the tree's health, natural form and amenity value in accordance with BS3998:2010 – Tree Work – Recommendations

Issues

I hold no objections to the reasonable repeat proposed pruning work.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
