Site

The Magnolia tree T1 as marked on the plan, and seen in the photograph, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Magnolia (T1) - reduce crown back to previous cuts (1.5m off). To let more light into the garden

Issues

I hold no objections to the sensitive reasonable repeat proposed pruning back to the most recent previous.

The specification is within standard good arboricultural practice, and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
