Image 3 (Bottom)

41, North Hill, Hornsey, London, Haringey, N6 4BS

The photographs below were taken at normal eye level using the standard camera setting on a mobile phone. They are intended to provide a fair and accurate representation of the existing outlook, availability of natural light and sense of enclosure experienced from within No 43/45 North Hill, These photographs assist in illustrating the likely impact of the proposed second-floor extension, which cannot be fully appreciated from the submitted plans and elevations alone.

Image 4 :

Existing View taken from point C marked on page 1 plans.

This photograph demonstrates the current level of openness and visible sky from the neighbouring property.

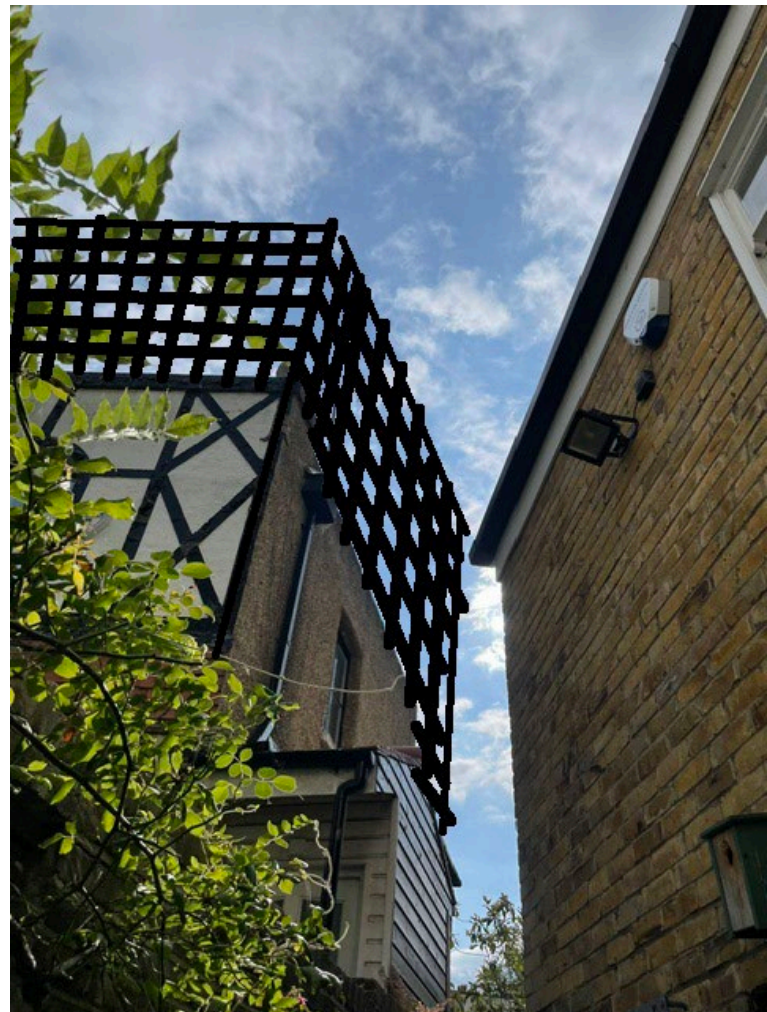

Image 5:

Illustrative representation of the likely effect of the proposed second-floor extension, showing the anticipated reduction in visible sky and increased sense of enclosure.

Image 7: View from the dining room door of No. 43/45. This photograph demonstrates the existing relationship between the two properties. The proposed second-floor extension would further increase the sense of enclosure, reduce outlook and increase overlooking, resulting in a greater impact on residential amenity.

Image 6:

View from Point C looking towards Point A , shown on page 1 plans. Illustrating the close relationship between the two properties.

Image 8:

View from point point B (shown on page 1), looking towards no 41. This photograph illustrates the current relationship between the properties. The proposed second floor extension would introduce additional built above the existing roofline, increasing the visual dominance of the neighbouring building and reducing the sense of openness currently enjoyed by 43/45.

THESE PHOTOGRAPHS ARE SUBMITTED TO ASSIST THE CASE OFFICER IN UNDERSTANDING THE PRACTICAL IMPACT OF THE PROPOSED SECOND- FLOOR EXTENSION ON THE NEIGHBOURING OCCUPIERS OF No 43-45 NORTH HILL. WHILE THE SUBMITTED DRAWINGS ILLUSTRATE THE DESIGN AND LOCATION OF THE PROPOSAL, THEY DO NOT FULLY CONVEY THE INCREASED SENSE OF ENCLOSURE, REDUCTION IN OUTLOOK, LOSS OF VISIBLE SKY AND IMPACT ON PRIVACY THAT WOULD BE EXPERIENCED FROM THE NEIGHBOURING PROPERTY. THE PHOTOGRAPHS THEREFORE PROVIDE IMPORTANT VISUAL CONTEXT TO ASSIST IN ASSESSING THE PROPOSAL'S IMPACT ON RESIDENTIAL AMENITY.
