Why Choose DuoDeck?

Our quality product is not only eco-friendly, but also benefits your own social conscience.

DuoDeck is extra hard wearing, so it needs no additional protective coating such as oil or paint, but instead provides an easy-to-maintain durable alternative to traditional timber products.

It is perfectly safe for children and animals too thanks to its unique formula, and will not rot or splinter.

DuoDeck has excellent slip resistance due to its unique characteristics. However, will remain slippery in snow and icy conditions.

There are no adhesives or chemicals that are harmful to the environment in DuoDeck!

DuoClad

Fire retardant treated composite cladding

Our new composite cladding is a 4m long 156mm tall and 21mm thick. You will achieve 135mm cover.

This product is Co/extruded* to give it UV protection and make it scratch resistant whilst maintaining a nice wood grain finish smooth to the touch.

*Co-extruded means it is passed through the press twice adding an additional layer. This additional layer not only provides a better look but also a protective, non-absorbent finish.

It is "Fire retardant treated to Class B".

Fencing Centre Calculators

Need help to work out what you need?

Simply click on which item you are designing, enter the length in metres and we will give you a fairly good indication of the materials you will need, sometimes materials might vary because of the situation and surroundings you are in but this should get you what you need...

Once you enter in the info, click calculate and then scroll down to see which items you need...

From here you can add to basket to get your total cost.... easy!

www.fencingcentre.co.uk/calculator/

All the products on this page are
Pressure Treated. Stocks may vary site to site.
All are sold in a metric dimension and length.

Fencing Centre Calculators

Need help to work out what you need?

Simply click on which item you are designing, enter the length in metres and we will give you a fairly good indication of the materials you will need, sometimes materials might vary because of the situation and surroundings you are in but this should get your what you need...

Once you enter in the info, click calculate and then scroll down to see which items you need...

From here you can add to basket to get your total cost.... easy!

www.fencingcentre.co.uk/calculator/

Fence Stores Limited offer a kerbside delivery service. If the vehicle is invited onto the customers property it is entirely at the risk of the customer and Fence Stores will not be liable for any damage to property. The delivery charge does not cover the driver to carry materials to the rear of a property, however this can be quoted for separately. For terms & conditions go to www.fencingcentre.co.uk
