Site

The Horse Chestnut tree T1, as marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 is a Horse Chestnut

Proposed works : Crown reduce by approximately 2.5 metres on all axis lift 3 metres

Issues

The proposed works to crown reduce by approximately 2.5 metres on all aspects and crown lift to 3 metres above ground level are considered reasonable arboricultural management operations.

The extent of the reduction is proportionate to the size and species of the tree and is not anticipated to result in an unacceptable loss of amenity or harm to the long-term health and vitality of the tree, provided the works are carried out in accordance with current arboricultural best practice (BS3998:2010).

Recommendation

No Objection
