Site

The Ash tree T1, as marked on the plan, and seen in the photograph, is situated in the rear garden of the property. It is publicly visible from Grove Road N10.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Ash (T1): Reduce to previous, most recent pruning points (approx. 1-2m)

Issues

I hold no objections to the proposed works to Ash (T1).

The specification to reduce the crown back to the previous, most recent pruning points (approximately 1–2 metres) is considered acceptable and in accordance with current arboricultural good practice. The works represent a repeat reduction to established pruning points and are not expected to result in any significant adverse impact on the health, vitality, structural integrity, or amenity value of the tree, provided that all pruning is undertaken to suitable growth points and in accordance with BS 3998:2010 Tree Work – Recommendations.

Accordingly, no arboricultural objections are raised to the proposed works.

Recommendation

No Objection
