Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

The proposed works are to replace the existing balcony and walkway railings sitting at 1004mm high to compliant 1100mm high railings under NBS Ss_25_60_05_05. This will include the use of scaffolding around these areas.
There will also be replacement of existing front entrance doors with a fire rating of FD30. A selection of doors has been provided to the residents. This is present in the documentation section of the planning application in other plans in PROPOSED FEDs.
Replacement of the existing brick boundary wall, to be replaced like for like in material, colour and design.
There will be new rainwater goods, which are to be UPVC in line with the existing, including the installation of gutter leaf guards. There will be several brick and masonry repairs carried out in matching materials. There will be several areas of concrete repairs and redecoration works.
The works will also include the renewal of the asphalt area on the ground level, carrying out repairs to the potholes.
Renewal of the balcony walk will be undertaken; a cold roof covering system is to be applied.
Renewal of clay roof tiles where necessary.

Has the work or change of use already started?

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
Not applicable

Note: Please read the help text for further information why developments may be exempt or not in scope.
