Site

The *Malus* spp. tree T1, as marked on the plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Front Garden:

T1: Mature malus: Approximately 7.00m: Reduce back to previous and most recent reduction points, approximately 1.20m. Thin crown density throughout by approximately 20%. Remove major dead wood. General maintenance

Issues

I hold no objections to the repeat reasonable proposed pruning works to reduce back to the most recent previous.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
