Existing & Proposed Elevation Drawings

The proposed advertising displays will comprise a double sided unit at one end of the bus shelter. The display structure will be freestanding but viewed as an integral part of the Transport for London shelter design.

JCDecaux

JCDecaux

Shelter Perspective View

Sustainability is a core principle for JCDecaux. We strive to create a balance between its business growth and social and environmental responsibilities. The twin pillars of innovation and sustainability drive the business forward and influence every project we undertake.

JCDecaux have recently been commended for its leading approach by achieving a place on the CDP's prestigious 'A-List' for climate change action.
