Site

The G1 Poplar spp. trees is situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Works to trees protected by a TPO.

G1: Group Poplar:

To remove 50% of the growths from the most recent reduction points and to reduce the remaining 50% by 50% in length

Its requested 50% of the regrowth from the existing pollard points are removed (approx. 8-9m in length). The remaining 50% of the growths are requested to be reduced by 50% (approx. 4-5m in length)

Issues

I hold no objections to the reductions of the lapsed Poplars.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well from such reductions and management regimes.

Recommendation

No Objection
