Proposal

Tree works proposed.

Works to tree protected by a TPO.

T1 Oak (Quercus sp.). Carry out a crown reduction of the Oak, reducing the overall canopy by approximately 2.0 metres back to suitable growth points throughout the crown. Works shall be undertaken selectively to reshape and rebalance the canopy, maintaining the tree's natural form, structural integrity and healthy furnishing growth. Pruning cuts shall be made to appropriate secondary growth points in accordance with BS39982010 - Tree Work Recommendations. Reason for work: General tree maintenance

Issues

I hold no objections to the reasonable proposed pruning works. The Oak tree has been reduced before.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

Recommendation

No Objection
