Site

The pollard Lime tree T1 as seen in the photograph and marked on the sketch plan, is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Lime (7m): Re-pollard to original points at 3m removing 4m to keep tree at a size suitable for its location

Issues

I hold no objection to the reasonable proposed re pollarding of the Lime tree back to its last previous pruning points.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes. The crown soon forms again.

Recommendation

No Objection
