Site

The mature Yew trees T1 & T2 as marked on the plan, and seen in the photographs are situated in the front garden of the property. They are publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (20/07/2026 at approximately 12:23pm).

The location is also within the Bruce Castle Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Front garden: Yew x2 (T1 & T2) - cut back hard, almost to stem (up to 2m off).

Reason: to allow more light into the building

Issues

I hold no objections to the proposed works.

Whilst the cut back is hard, Yews do have the capability of responding well and reforming their crowns.

Recommendation

No Objection
