

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2026/2181
Application type	Conservation Area Notification
Site Address:	48 Stapleton Hall Road, Hornsey, London, N4 3QG
Proposal	<i>Eucalyptus tree - Large vigorous tree that was topped at about 5m and has regrown to develop a large crown with dense, vigorous foliage. Roots from it were identified; it is the dominant influence on the house and will get much larger if left. Too close to the house for pruning to be a viable option. Request to fell, remove stump or treat to prevent regrowth</i>

RECOMMENDATION:	No Objection	
Application date	31/07/2026	
Tree Inspector	DM	Date: 24 th August 2026

Site

The Eucalyptus tree (T4 in the arboricultural report), as marked on the plan, and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Eucalyptus tree - Large vigorous tree that was topped at about 5m and has regrown to develop a large crown with dense, vigorous foliage. Roots from it were identified; it is the dominant influence on the house and will get much larger if left. Too close to the house for pruning to be a viable option.

Request to fell, remove stump or treat to prevent regrowth

Issues

I hold no reasons for the removal of the high water demand Eucalyptus tree adjacent to the rear extension.

However, not for the reasons given as the soil analysis is inconclusive (Driscoll's guidelines not met- showing desiccation) but for the reason the Eucalyptus tree is not worthy of further protection when using a methodology to rate it's worthiness for a Tree Preservation Order..

Recommendation

No Objection
