Site

The young Hornbeam tree T1, as marked on the sketch plan and seen in the photographs is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

(T1) Hornbeam - Situated in the raised front garden of 43-45 North Hill. Proposing to reduce entire crown to previous pruning points (up to 3m on height and 1.5m on lateral spread). This is to prevent failure of regrowth and prevent encroachment to building and public footpath

Issues

I hold no objections to the repeat reasonable proposed pruning works to prune back to the most recent previous.

The specification is within standard good arboricultural practice and husbandry.

Recommendation

No Objection
