Subject: RE: Hornsey Town Hall - Tree safety works to tree on the green
Importance: High

Dear All,

The dead Sycamore tree is being removed today.

We are satisfied that the tree is being removed under a Five- Day Notice.

They are looking to re plant with a Wellingtonia tree.

Regards,

Daniel Monk

Senior Arboricultural Officer (Planning)

Haringey Council, L.4, Alexandra House, Station Road N22 7TY

Subject: RE: Hornsey Town Hall - Tree safety works to tree on the green

Evening all

Just following up on the previous update regarding the tree at town hall green.

Last Thursday, our estates team received a notification from Haringey Council's Tree Officer, in relation to the large Sycamore tree on the Town Hall green and its seriousness of the safety concerns that have been identified. Haringey subsequently attended site and has since written to advise that he can see the tree is now starting to shift. The roots appear to be detaching from the surrounding soil, which indicates that the tree is moving. Given the potential risk, this now requires urgent attention.

I'm writing to let you know that the tree on the Town Hall Green is due to be felled to ground level this Friday. The works will commence at 8am. Please note that a large exclusion zone across the front forecourt of the Town Hall will be cordoned off and fully managed by a team of six operatives to ensure the safety of the public while the tree is being felled.

As part of the works, there will also be a replanting programme.

Regards

Nick
