RECOMMENDATION:	No Objection	
Application date	17/08/2026	
Tree Inspector	DM	Date: 15 th September 2026

Site

The various trees, as listed above, seen in the photographs and marked on the plan are situated in the front and rear grounds of the property. They are not publicly visible to the rear.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Sycamore, adjacent to No 18, reduce vertical and lateral growth by 1.0 -2.0 M approx back o most recent previous pruning points

G2 3 Sycamores, on road frontage, crown thin density by 30% , lift 4.2 M to allow more light penetration to flats .

T3 Large Ash, stressed, remove deadwood and thin by 15% for health and safety reason

T4 Lime, remove deadwood and lift 4.5 M as an ongoing maintenance

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The crown lifting on the three mature Sycamore trees G2, is on the garden side, and will balance the crowns as on the roadside.

Recommendation

No Objection
