The young self- set Ash tree is situated in the rear garden of the property. It is indiscernibly publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Ash (Fraxinus excelsior)

Notes: Self seeded growing close to public footpath

Recommendation: Reduce height by up to 3m to contain crown and root activity

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such management regimes.

Recommendation

No Objection
