Site

The Sycamore tree T1 as marked on the plan, and seen in the photographs, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Sycamore: Reduce height by 2.5 metre & Lateral spread by 1.5 metre

Reason for work: General tree maintenance and light starvation to property

Issues

I hold no objections to the reasonable proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management

Recommendation

No Objection
