Site

The various trees as listed above, marked on the plan and seen in the photographs, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Sycamore (T1): Reduce to previous points (approx. 1-2m)

Ash (T2): Reduce to previous points (approx. 1-2m)

Plum (T3): Reduce to previous points (approx. 0.5-1m)

Issues

I hold no objections to the proposed reasonable repeat works to reduce back to the most recent previous points.

The specification is within standard good arboricultural practice and husbandry.

The species generally respond well to such reductions and management regimes.

Recommendation

No Objection
