Dear Patrick,

A noise impact assessment report was completed for the proposed permanent padel courts located at The Hornsey Club, Tivoli Road, Hornsey, London (dated 2 February 2026).

The assessment report outlined the proposed opening hours as 08:00 – 20:00 hours, however the proposed hours are actually 08:00 – 22:00 hours. The updated opening hours are still within the daytime period for which the noise limit was set, therefore the change in opening hours has no impact on the calculation and assessment within the report.

The canopy that is proposed over the padel courts was not included within the assessment. The canopy is likely to provide a slight improvement with regards to increasing noise mitigation, however as there are large open sections around the sides of the structure and there is no data for the noise reduction that the canopy would provide, our assessment is unchanged.

Yours sincerely

Evie Kildonan-Rose
