Site

The young mature Spruce tree, as seen in the marked photographs, and marked on the plan, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Norway Spruce - Reduce the height by approx. 6.0m

Crown reduce the spread to balance and shape (approx. 0.8m)

Maintenance works in line with good arboricultural practice

Issues

I hold no objections to the proposed pruning works as the tree is not worthy of further protection with a Tree Preservation Order when using a methodology to rate its worthiness.

Recommendation

No Objection
