## **Site**

The mature Lime as marked T1 on the map, is a privately owned tree situated in the rear garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

*Lime adjacent to road: Reduce overall crown by up to 2 metres; prune within most recent reduction framework*

## **Issues**

I hold no objections to the reasonable repeat proposed pruning works.

The specification is within standard good arboricultural practice and husbandry.

The species generally responds well to such reductions and management regimes.

## **Recommendation**

**No Objection**
