Site

The mature Sycamore and Oak trees T1 & T2, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Sycamore rear boundary.

Reduce crown height by up to 4 meters back to previous reduction points due to a subsidence claim in neighbours property.

BS 3998

T2 Oak rear boundary.

*Reduce crown height by up to 4 meters due to subsidence claim in neighbours property
BS3998*

Issues

I hold no objections to the proposed reasonable pruning works.

The specification is within standard good arboricultural practice and husbandry.

Both tree have had reductions before and both species generally respond well to such reductions and management regimes.

Recommendation

No Objection
