Site

The tree (appears to be a Sycamore from the photographs) is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Woodside Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Five Day Notice

Tree is in a neighbouring yard. I am only asking to remove a branch that has apparently broken, is lying on my yard and is resting on my fence at the back of my yard, not a boundary fence. I will only be dealing with branch in my yard. I don't know what type of tree it is but I will not be dealing with trunk, only the branch in my yard

Issues

I hold no objections to the failed branch being dealt with under a Five- Day Notice.

It would be prudent and courteous to inform the neighbour prior to making the branch safe so that they are aware of the situation.

Recommendation

No Objection
