Site

The Cypress and Apple trees T1 & T2, as marked in the plan, and seen in the photographs are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Cypress (T1): Fell

Apple (T2): Reduce to previous pruning points (approx. 1-2m regrowth)

Issues

I hold no objections to the tree works.

The Cypress is a low-grade tree too close to the structure, and not worthy of further protection.

The pruning specification for the apple tree is within standard good arboricultural practice and husbandry.

Recommendation

No Objection
