Dear Daniel

I am happy to confirm that all my previous concerns regarding the details and materials for this development, as itemised in your email of 17/8/26, have now been fully resolved to my complete satisfaction, in particular, grey window frames, a sound flashing detail to where the metal cladding meets the rendered band, and a coping to the metal cladding.

Regards

Hi Richard,

This is a follow up to our last meeting that was on 17th August. The agent has provided the attached details regarding the materials. I've booked a slot for 10:15 to 11:00.

Kind regards

Daniel
