Site

The Birch tree T1 as marked on the plan, and seen in the photographs is situated in the front garden of the property. It is publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (24/09/2026 at approximately 2:23pm).

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Silver Birch - heavy lean with crack through trunk - remove to ground level

Issues

I hold no objections to the removal of the Birch tree that has a longitude crack (see daylight through it) on the base of the main trunk.

There is a duty to replace dead, dying, and dangerous trees in a Conservation Area.

Recommendation

No Objection
