L10/59 Solar shading system

Sun Protection Screen/Vertical

The original S-shaped slat, only available from HELLA: elegant soft wave profile

APPLICATION

Outdoor venetian blind for use with cable or guide rail for sun, privacy, and heat protection.

DESCRIPTION

The AR63 ECN is a high quality outdoor venetian blind with edge-crempled, 0.45mm thick and 63mm S or Z shaped aluminium slats. The patented stainless steel clip cam tape (ECN), which connects the slats, ensures exact packaging, perfect loop formation and thus a minimum package height. AR 92 S ECN can be guided by rope or rail and driven by crank or motor.

FEATURES AND BENEFITS

- Optimum darkening of rooms
- Slat guide pins made from metal for lower maintenance
- Unique omega punching replaces the need for plastic grommets
- Weighted bottom rails
- Suitable for installation inside and outside the reveal
- Window size (maximum) 18m² – consult supplier for specific dimensions
