Dear Viviana

Further to my site visit and inspection of the trees, on and adjacent to the site, and having reviewed the current plans we (WCEL) see that the proposed works to the building should have obvious impact to the trees on and adjacent to the site. Subject to appropriate safeguards and working practices which will be broadly outlined in our AiA report which is in the process of being prepared.

As such, from a professional arboricultural perspective, we do not see a reason for the application not being validated in relation to Arboricultural matters as we consider there to be no notable impact from the demolition and extension.

Our report will be provided in the agreed prioritised timeline.

Many Thanks

Kind Regards

Philip
